Technical Skills

Languages: **Python**, JavaScript, TypeScript, HTML/CSS, SQL, **PostgreSQL**
Technologies/Frameworks/Libraries: ReactJS, Redux Toolkit, Mendix, NextJS, Express, MongoDB Atlas, Tailwind CSS, GitHub, Git, Vercel, Postman

Experience

Full Stack Intern   October 2023 - December 2024
5-G Info Tech   *Haryana, India · Remote*

- Developed and deployed responsive web applications using **React.js, Node.js, and Express.js** to enhance user experience and **performance**.
- Enhanced website performance by **optimizing code** and **debugging errors**, improving load times by **20%**.
- Collaborated with a team of **5+** developers to deliver **scalable web solutions** and meet project deadlines.

Software Developer   July 2025 – Present
Alchelyst   *Bengaluru, India · On-Site*

- Designed and deployed frontend applications using **Mendix, improving feature delivery speed by 25%**.
- Built and integrated scalable **backend APIs in .NET for Finbourne, Lemonedge, and Myntra systems**, reducing data processing time by 20%.
- Performed rigorous **testing and debugging, cutting post-deployment errors by 30% and ensuring seamless system reliability.**

Projects

AgriTrade | *Next.js, Node.js, Express, MongoDB, Tailwind CSS* |GitHub Link

- Developed a **secure digital marketplace** enabling farmers and buyers to establish transparent contracts.
- Implemented **authentication, role-based dashboards**,guided workflows, streamlining contract creation by 40%.
- Designed **contract processing logic, optimized schema structures**, and enforced business rules for data integrity.
- Leveraged **MongoDB Atlas for scalable data storage**, supporting users with efficient retrieval of contracts and logs.

Appointment Booking AI Agent | *FastAPI, Python, Google Calendar API,* |GitHub Link

- Built an **AI-powered scheduling system** with FastAPI to process natural language queries for appointment booking.
- **Integrated Google Calendar API** to automate real-time availability checks and event creation, reducing manual scheduling by 80%.
- Implemented a **Streamlit-based chat interface**, enabling interactive user communication and improving response efficiency by 50%.

AI Resume Analyzer | *React, Node.js, Tailwind CSS, Puter.js* |GitHub Link

- Developed an **AI-powered platform to analyze resumes** against job descriptions and provide ATS-based feedback.
- Integrated **Puter.js for serverless auth, storage**, and AI evaluation, cutting backend setup time by **60%**.
- Designed a **responsive UI with React and Tailwind CSS**, ensuring cross-device compatibility and clean user experience.
- **Built a resume parsing and feedback pipeline** that reduced manual screening time by 70%.

Achievements

- Showcased **"AgriTrade: A Sustainable Farming Marketplace" at I2ITCON 2025**, highlighting innovative contract workflows and sustainable agriculture solutions.
- Achieved proficiency in Data Structures and Algorithms by solving **100+** coding challenges strengthening problem-solving skills by **30%**.

Education

Dr. A.P.J. Abdul Kalam Technical University   November 2021 - June 2025
Bachelor of Technology in Information Technology   *(Ghaziabad)Uttar Pradesh, India*
